### Abstract

The family with generations serves the mechanism of producing all types of knowledge, values, and judgment criteria for sorting the good from the 'Satanic' bad. (God is embracing herethe values of 'family man and woman system', sharing responsibilities, mutual trust, self-initiation "to building worthyhumans, animals and plantations". However, still remaininguntouched oversize minority whois practicing heavily fatal conducts of bloody crimes, deadly bombing of civil honecent people, and commit bloodsheds, brutalities, mass genocides of innocent peoples; violent bloody cold wars and other outlaws, that belong to "the Satanic Psychology of Human Race".

## ***Preface***

The Lord God gave Adam and Eve verbal counseling to not to eat from the 'Tree' at the middle of Paradise, but both did and committed sexual sin as urged by the 'Satan'. However, Adam remained alone with no suitable helper<sup>1</sup> so, the Lord God created from Adam's ribs<sup>2</sup> a woman and brought her to the man Adam. The man said, "This is now bone of my bones and flesh of my flesh; she shall be for she was called 'woman'. And they become one flesh. (*God is embracing here the values of acceptance, care, attachment, and companionship*)

The Lord God had featured the ground for all the wild animals and all the birds in the sky. God brought them to the man Adam to see what he would name them; and whatever the man called each living creature, that was its name<sup>3</sup> So the man gave names to all the livestock, the birds in the sky and all the wild animals (*God is embracing here the values of giving, delegation, and trust*)

## ***Adam and Eve Ate from Tree of Life & Spelled Down to Earth***

The true purpose of "the Tree"<sup>4</sup> existence is not for Adam and Eve to commit sexual sin, but to be the legal couple "man and woman created "namely by God" for creating the concept, system and practice of family as the basis of society, and the human race of Solar-Earth System (SES)<sup>5</sup>. (*God here is embracing the values of man and woman for family system, based trust, delegation, and sharing caring life destiny*)

However, since there is an *oversize societal minority* practicing heavily fatal conducts of bloody crimes, destructive uncivil behaviors, cold bloody wars, and many other outlaws, that belong to "the Satanic Psychology of Human Race". All the [adverse](#) thinking, attitudes, behavioral outlaws, fake actions, setback consequences and negative implications to the welfare of Human Race, are elements of the new psychological science termed by this Author "a Satanic psychology of Human Race", which is explored next.

The first nominal mistake committed by Adam and Eve is the technical disobedience of God to not getting close or eat from the 'Tree of life', which God used, not for committing sexual sin, but rather to provide the Earth populations "a standard criterion measure of man and woman family as a couple to produce and manage the life and records of families and generations. (*God is embracing here the values of legality, documentation, human organization, self-confidence, and life stability of individuals, groups and communities*).

But God brought further to the creation scene, a new factor called 'Satan', who symbolically represents every human's wrong: e.g. refusal, ignorance, public and private corruption, bullying, intimidation; prejudices of color, culture, nation, economy, faith, and residence ; sieging peoples or nations, cold wars, rape, bloody local and regional disputes.

Despite Satan refusal of God's request to pay attribute to Adam, based on prejudices of birth, color, faith, or origin. 'Satan' was made from fire and Adam from dirt. The Lord God exchanged ideas with Satan to give up his refusal. (*God is embracing here the values of Democracy, free of choice, debating, persuading, respect for another opinion, and being 'Ultimate' confidence but humble and tolerant*)

Eve, the woman of Adam were asked, "Did God really say, 'You must not eat from any tree in the garden'?" The woman said, "We may eat fruit from the trees in the garden, but God did say, 'You must not eat fruit from the tree that is at the middle of the garden, and you must not touch it, or you will die.'" (*God is embracing here the values of free choice, concern about others' safety, mutual dialogue, and info understanding*)

Eve answered: "You will not certainly die" "For God knows that when you eat from it your eyes will be opened, and you will be like God, knowing good and evil." (*God is embracing here the value of truth,*)

When the woman saw that the fruit of the tree was good for food and pleasing to the eye, and also desirable for gaining wisdom, she took some and ate it. s/he also gave some to her husband Adam, who was with her, and he ate it.<sup>7</sup> Then the eyes of both of them were opened, and they realized they were naked; so they sought fig leaves together and made covers for themselves. (*God is embracing here the values of pragmatism, adaptation and self-care*)

Then the man Adam and his wife heard the sound of the Lord God calling him, "Where are you?" He answered, "I heard you in the garden, and I was afraid because I was naked; so I hid." And he said, "Who told you that you were naked? Have you eaten from the tree that I commanded you not to eat from?" The man said, "The woman you put here with me—she gave me some fruits from the tree, and I ate it."

Then the Lord God said to the woman, "What is this you have done?" The woman said, "a serpent deceived me, and I ate." the Lord God said to the serpent, "because you have done this, 'curses are upon you above all livestock and all wild animals! You will crawl on your belly, and you will eat dust all the days of your life. and I will put [antipathy](#) for you (*God is emphasizing here the values of accountability and fair discipline*)

Old Earth Creationists represent the vast scientific evidence which supports an old age for the universe as ten billion light-years old<sup>5</sup>, it was noted the distance between galaxies and the extreme lengths of time it takes for light to travel from distant galaxies to our own planet Earth. Newman comments that the "most distant galaxies and quasars we can see could be over ten billion light-years away, which suggests that the universe is at least that old.

### **How Long Humans Have Been On Earth.**

Humans and their ancestors have been walking the planet for about 6 million years<sup>6</sup>. *Homo sapiens*, who are the modern form of first humans, evolved 300,000 years ago from *Homo erectus*. Human civilizations started forming around 6,000 years ago in Ancient Egypt and Mesopotamia (Ancient Iraq).

### ***Homo sapiens***

*Homo sapiens* began walking the African continent around 300,000 years ago and were the only species of the *Homo* genus that is not extinct. *Homo sapiens* are the most advanced of all living species on the planet. There are over 7.8 billion people on the planet and researchers anticipate that the evolution of the *Homo sapiens* can only be rendered extinct by a planetary-level catastrophe.

### ***The immense size difference between Galaxy and Solar Earth Systems (SES)<sup>7,8</sup>***

There is a huge superiority of Galaxy civilizations. Over solar-Earth, despite the tiny *size of solar* -earth system comparable to galaxy digital system is a ratio of  $1.9 / 100,000 = 0.000019$ . So, the scale ratio of the size of the solar system to the galaxy is 0.000019:1, or approximately 1:52,632. The Sun is a star in the 'Milky Way' galaxy. When viewed from the side, the galaxy looks like a disk that is approximately 100,000 light-years in diameter (a light- year is the distance light speed travels of in a vacuum currently\* 299,792,458 meters per second, or about 186,282 miles per second. in one year) and about 1000 light-years thick. What is the diameter and thickness of the Milky Way in meters? In kilometers?

### ***The Advent of Galaxy New Space Societies and the Merge of Universal system***

When the big bang happened at the beginning of creation, several different clusters of the Globe combined together as three larger units called galaxies. \*Spiral Galaxies \* Elliptical Galaxies and \* Irregular Galaxies<sup>9</sup>

As Adam was created from mud and Satan was made from fire, Galaxy inhabitants were created most likely from light, based on the "light speed" way created, performing life and communicating along millions of years, are expected by this Author to be more digital, sophisticated and developed than analog Earth societies. They have their own digital language(s) and accents.

What is urgently needed is more contacts from galaxy societies, more expertise from linguistic pioneers of 'Solar Earth System' (SES) to transform the 'Ultra Speed Beats Messages' (SBM) into a shared language to both Earth and Galaxy (EG) inhabitants. Like SES Linguist pioneers had solved the readability of written languages of ancient civilizations of Egypt and Mesopotamia (Ancient Iraq). Neuron chip technologists may also invent EG shared language or accents to be implanted in the brain languages region, and used daily communications.

### ***Humans are Born, Pass and Held Accountable Individually as their Deeds.***

Individuals are individuated in rights and responsibilities according to Heaven's Holy Books. Humans are born individually, pass away individually and held accountable for their deeds toward themselves, others, and concerned environments. But the big problems come from abnormal random life situations in most world poor settings. Or in micro form lives, like special cases of mother pregnancy, poor Families, low quality training workshop, school, and university and laboratory classes. Kindly refer<sup>10</sup>

### ***Govermental Authorities and Societal factions are living a Low mutual Coexistence<sup>11</sup>***

We present coexistence as a social behavior in three main points: the concept of coexistence, its role in the civil society of people, and the social reality of coexistence in terms of reward and punishment.

The concept of coexistence with the environment is mutual existence, which is a mostly non-verbal behavior that brings people together in a specific area without feeling the need to

interact or talk together.

### ***Local governments & societal factions are living the lowest mutual Coexistence***

We present coexistence as a neutral social behavior in four main points: the concept of coexistence, its role in the civil meeting of people, the social reality of coexistence, and reward and punishment through coexistence.

The concept of coexistence with people and the environment is mostly a non-verbal psycho-motor behavior that brings people together in a specific area without feeling the need to interact together as in normal daily life. It is also a behavior of a primarily cognitive-motor nature that appears by the individual by the age of two years. How? With the following clarifications:

1. Any human behavior, no matter how simple or complex, begins first with perception: with sensory attention (through the senses), then sensory nerve messages are transmitted to the appropriate areas in the brain, so the individual perceives, feels, and moves (behaviorally) according to specific cognition.
2. Any infant is not able to do much except perceive the reality - visual / auditory in its simplest forms, due to the primary psychological and physiological structures that possesses at his age.
3. The first and simplest human behavior by watching, hearing, hinting, giving, taking and signaling others and environment through cultural expressions available to the child.
4. The more human behavior that an individual begins at new situations, which s/he does not have enough knowledge, is coexistence. Given the individual's psychology not yet ready to act more, due to the limited cognitive, practical, logical, psychological-personal, and spatial/temporal requirements of coexistence to act in such situations.
5. Coexistence is ultimately a cognitive decision by which the individual becomes aware of the environment, but still feels unable or undesired to interact due to temporary stay, or not needing to interact due to conflict views, or because s/he is not convinced by it, or s/he has reservations about things in it, thus s/he behaves neutrally through coexistence.

In brief, coexistence is a social adaptation in its simplest form: the individual's apparent or formal neutrality with the environment, without having to modify anything in her/himself, habits, or needs (as is the case in non-interactive adaptation) in order to live in the environment. The individual, and people in general, coexist mostly with themselves, fulfill their needs, and exercise their daily desires, relying on their own capabilities and attitudes, first, and then whenever necessary, using the least possible of direct interaction with others.

### ***The role of coexistence in the civil meeting of people***

Cohabitation is a non-interactive behavior of people. It is the behavior of people who live neutrally side by side with the least possible degree of interaction by give and take as required by the circumstances of their temporary residence together in travel, work, housing, study, or any other undertakings. Coexistence, as a silent behavior, often resembles the behavior of "ghosts" that come and go together without noticing interaction, sound, smile, greeting, communication, or anything else that makes human life humane.

Hence, people's knowledge of each other, no matter how much they live together, seems very limited, which makes their interaction difficult, hesitant, fearful, or unnecessary in most

cases. Thus, we read in history that primitive man, who inhabited the Earth for more than a million and a half million years, was unable to leave us any trace of civilization during 99% of this period extending into the depths of history, because he spent these long years coexisting with his counterpart, man, then animals, and the surrounding nature.

Generally, it is true that he met them and coexisted with them since as in normal daily life. It is also a behavior of a primarily cognitive-motor nature that is formed in the individual by the age of two years. How? It is with the following clarifications:

1. Any human behavior, no matter how simple or complex, begins first with perception through sensory attention by the senses, then sensory nerve messages are transmitted to the appropriate areas in the brain, so the individual perceives, then feels, and moves behaviorally according to specific circumstantial data.
2. Any infant is not able to do much except perceive and perceive reality - visual / auditory in its simplest form, due to the primary psychological and physiological structure that he possesses at this age.
3. The first and simplest human behavior by which a child interacts with the environment is coexistence through physical movements. Because such behavior is limited in its various executive requirements, which are consistent with the various psychological/cognitive, motor, physical, linguistic, and cultural behaviors available to the child.
4. The environment, due to the infant's age, has not yet been able to learn any communication skills, or concepts of time, and several physiological reasons. Hence, the child has no important behavioral outcome except to act neutrally with this environment through coexistence.
5. The first and simplest human behavior that an individual undertakes in new situations, not known enough to him, is coexistence, given the individual's psychology is not yet ready to act more than keeping behaviorally neutral, due to the limited cognitive, practical, logical, personal, and spatial/temporal requirements of coexistence to act in such situations.
6. Coexistence is originally a cognitive decision by which the individual is aware of the environment... (Its goals, nature, components, processes, and results), but despite this, he feels unable to relate to people around more than non-interactive nominal as indicated earlier. Or by not wanting or needing to interact because of a conflict in values, or of temporary stay, or because he is not convinced by it, or because he has reservations about something in it, and thus he behaves neutrally towards it through coexistence.

### ***Government Authorities and Socio factions are living instable lie of Double Standards.***

More of big western authorities are committing 'Big Lies' of 'Double Standards'. United States, for example, charged Iran Sept., 2024 [World News] on providing Russia with short distance Missiles against Ukraine; but hopeless attacks were launched against 'big Sister state', Russia. In addition, manipulating the conflicts between China and Taiwan. conflicts between minority Groups and their perspective Arab stands. It helps to indicate to the U.S strict refusal of Russian troops existence in Cuba near the U.S.<sup>11</sup>.

### ***Timelines of the Cold Wars and Destruction Effects on other Nation States.***

The Cold Wars 1945-1989 were (and still are) Since the end of World War Two (SWW), the most backward period of human life and history. Since the end of 'WWT' geopolitical tensions between the 'United States and the Soviet Union, and their respective allies, the

### ***The U.S' use of Containment' Policy in ending the Soviet Union 1991 and Resisting Russia through Managing the Flaming Cold Wars***

U.S. diplomacy was focused all along on preventing the spread of communism and ending the Soviet Union (SU) where it already had influence. The U.S. policy used 'Containment Strategy'<sup>12</sup> 'late 1940s to check the expansionist policy of the Soviet Union. 'Containment' is an eclectic approach that allows the policy maker to use any date, file, procedure, technique, tool, or any possible means, to achieve the political ends, belong to S.U., or Russia.

Russia took the political power of 'S.U' in sharing the U.S. direct influence on world affairs; and its next role to the U.S. as world power engaged in the standoff that could result in nuclear war and the deaths of hundreds of millions of people. However, The Cold War

continued a crucial part of American policy, which appeared at Apr 8, 2022 in using Ukraine and Western Europe states in the wars that U.S [blowing up](#) in weakening Russia.

The Roles of the U.S with incitement and repeated appeals of Ukraine and Israel; and Russia with the media equipment support from China, North Korea and, Iran are Flaming the violent Cold Wars into Bloody Genocide Massacres and total demolition of Humans, the civil constructions, and demolishing of economic industries, plantations, and Green Areas, 1992-Present 2024.

### ***Concluding Critical Discussions of the Satanic psychology of States Authorities***

The First humiliating negligence committed against ultimate cordial relationship, like that of Adam and Eve as husband and wife, and father and Mother of human race. But, contrary, It is of Psychology Crises, motivated by local 'States' Authorities who are persisting up to the end of Earth life.

But remain active, some power structures who have their unspoken biased welfares, even with violating human values. Mr. Joe Biden, a democrat and ex-president of the U.S has 'Untold history of support for Israel'<sup>13</sup> Documented and reviewed in Delaware and New York that gave insights into how early affected Biden's political career,

[As easing the deadly strikes of Gaza and populations and bombardments genocide and air spying acts of Joe Biden's-Netanyahu partnership Support for Israel](#) as being Full Genocide partners, through mobilizing military bombing attacks, sea fleets assaults, secret-info services, and experienced the atrocities of Cold Wars corruptions.

- So, Mr. Biden spent most of his age lobbying for Israel, despite the total destruction of Gaza by Genocide savage bloody attacks. Mr. Joe Biden is currently ex U.S.A President & currently is out of service, and ex Full Genocide Partner with Israeli Government and Military, plane Carriers, sea fleets, which left hundreds of thousands dead, and multiples others homeless, unreacting to losses of humans and industries. 'The human toll of Israel's war on Gaza. Oct 9, 2023 Here are the latest casualty figures in Gaza as of February 3, 2025: Gaza has been killed: at least 61,709 people, including 17,492 children; Injured: more than 111,588 people Gaza War Complicated Biden's Meeting with Indonesia's Widodo<sup>15</sup>

In November 1972, just a couple of days out from Election Day, New Castle County Councilman Joseph Robinette Biden waged a longshot campaign for the U.S. Senate, [a story](#) in local newspapers threatened to derail Biden's surprisingly run. A Jewish campaign wasn't carefully organized. Volunteers quit, pointing to what alleged was the upstart politician's public dishonesty on Israel.

By not speaking out, the volunteer said, "he would have been helping to sucker Jews out of their money."

Apart from 2020 history of Biden's political career, (Verso), the episode appears to have largely been forgotten or left out of reporting on the president's Gaza policy.

In an August meeting, according to reports by the *ilmington News Journal* and *Philadelphia Inquirer*, Biden told Victor Livingston, a volunteer, that he needs a firm position on the

Israel-Palestine issue because his campaign was pursuing contributions from Jewish donors. And he couldn't have his personal views included because "it would be political suicide to state true beliefs without representation."

Whatever Biden's position on Israel, Biden adopted Livingston's view that candidate allegedly telling him, would be the one he would publicly take for the rest of his career. For this purpose, Biden held a margin with president of Indonesia to settle the Palestinian minority in the Middle East, in Indonesia. Mr. Biden is retired now.
